ZeroB AS3 Water Softner 3000LPH

ZeroB Water Softener

ZeroB AS3 Water Softner 3000LPH

Water Flow 3000 LPH

Treated Water Hardness (As Caco3) <50 ppm

Inlet/Outlet Connection Size 1 inch

Drain Line 0.5 inch

Electric Supply 230 V AC/6 Amp = 2 point electric

Treated water output at 500ppm 4500 ltrs.

Salt Capacity 200 kg

Regeneration Pump Self priming pump (with inbuilt NRV)

Installation Footprint Area Occupied 4 x 5 ft.

Purple Resin Quantity 45 litres

Softener Vessels Composite Filament Wound Resin Vessel and HDPE Brine Tank

Process Valve Fully Automatic Programmable

Salt per recharge in kgs 7
